

Shri Shivaji college of Physical Education Amravati

Report on Remedial Program

Remedial coaching at Shri Shivaji college of Physical Education is a practice which happens regularly in phases and as per requirement.

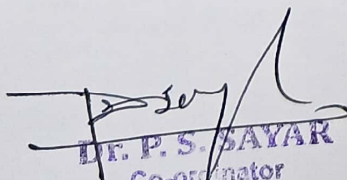

Report 2021 - 2022

It has been observed during the content test at the beginning of the academic course, that many students were unable to recollect the knowledge of the the sports coaching and English subject although sufficient time was allotted for the same. these school units reflect in B.P.E.S., B.P.Ed. and D.Y.Ed course curriculum.

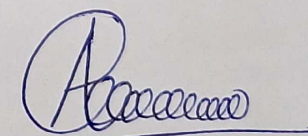

Keeping this date as a base, students were motivated from the beginning the college itself to draw their attention to the difficult area and special attention was given make the concept clearer. we used different strategies and learning and coching training were employed to make remediation more meaningful and fruitful. the students with learning needs were catered throughout the six (6) semester for..B.P.E.S. and four (4) semesters for the B.P.Ed either before the semester's end examination or after it.

a group of students were given extra coaching as they did not take their internal examination seriously. They along with an elderly students. was coached separately to bridge the knowledge gap of the Physical Education program. They were asked to stay back 2 hours after college hours for extra input by the staff.

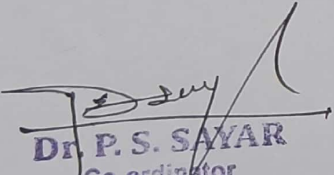

They all found differences in understanding disciplines and sports coaching. necessary techniques were given as inputs for strengthening the concepts in the above mentioned B.P.E.S , B.P.Ed and D.Y.Ed. curriculum after the remediation, they would have written their examination well.
